EXPERIENCE

Post Office Ltd, London — Sales Assistant

NOVEMBER 2019 - PRESENT

Part-time sales assistant. Tasks include serving customers at the till, merchandising, restocking shelves and keeping the building tidy.

Krishna News, London — Cashier and Stock Clerk

JULY 2017 - AUGUST 2017

Tasks included restocking the products or sometimes serving customers at the till. Communicating with consumers so that they feel welcome and gain the incentive to shop at the store again.

Tesco PLC, London — Stock Clerk

NOVEMBER 2015 - NOVEMBER 2015

The job was restocking the shelves and reorganising the storage compartments, communicating effectively with other groups to allow efficient division of labour.

EXTRA CURRICULAR ACTIVITIES

Caring for others, London

JUNE 2015 - PRESENT

Deliver food to an elderly's house daily and help out with moving heavy objects, fixing the bed, and many times helping fix problems that occur on his phone/internet.

- Fundamentals of Web Technology
- Information Systems Analysis
- Logic and Discrete Structures

SKILLS

- 1) Algorithms
- 2) Java
- 3) Leadership
- 4) Sales
- 5) Teamwork
- 6) Computer Architecture
- 7) Computer Information Systems

LANGUAGES

- 1) English
- 2) Gujarati
- 3) Hindi

INTERESTS

- 1) Building computers
- 2) Cricket
- 3) Badminton
- 4) Gaming
- 5) Cycling
- 6) Gym

- Object Oriented Programming
- Procedural Programming
- Professional and Research Practice

Newham Collegiate Sixth Form, Location — A-levels

SEPTEMBER 2017 - JUNE 2019

- Biology, A
- Mathematics, B
- Economics, B

Forest Gate Community School, London — GCSEs

SEPTEMBER 2012 - JUNE 2017

- 2 grade 9s
- 1 grade 7
- 2 grade A*s
- 4 grade As
- 2 grade Bs
- 2 Distinction*

PROJECTS

Impossible Quiz — Java

I have created a quiz with Java that asks the user to answer the questions. Challenges were that questions would be repeated. I learnt ArrayLists and sorting algorithms, using Stack Overflow and YouTube videos, to store items in an ArrayList instead of an Array. Finally, once the quiz ends the user's scores, which are stored in a separate ArrayList, are displayed in descending order using the methods I learnt.

Restaurant Consultation Project — Group Project

We were given a scenario where a restaurant hired us to help them improve their speed of service, table booking, payment system and customer satisfaction. I nominated myself as the project manager and assigned each task to those who had prior experience in that field. To ensure everyone is up to date, we had meetings every other day to share what we have done, what we have to do and to practice our presentation.
